NOTICE TO CREDITORS.—All persons having claims against A. C. Overshiner are hereby notified, in compliance to the statutes in such cases, that they are required to present their claims to me at the First National Bank Hopkinsville, Ky., property verified and proven, on or before March the 1st 1895.

DeMotte says women have been growing more pure, refined and cultured, and are morally stronger than men. Where the young man is turned easily adrift from strong moral influences he is really in need of a chap-ron more than are the girls whose footsteps are so closely watched and moral nature guarded. Hear him at Tabernacle.

The Bushberg Catalogue, a grape manual issued by Bush & Son & Messenger, Bushberg, Mo., is out for 1895 and is the most complete book on the subject of grapes to be found anywhere. It contains 200 pages and is a comprehensive treatise on the botany, cultivation, diseases, insect enemies, and varieties of American grapes. Three previous editions have been issued in 1869, 1875 and 1883. This later edition contains descriptions of nearly 800 varieties of grapes, including nearly all of the new varieties up to 1894. Many of these are illustrated natural size. The book is one that should be in the hands of every grower of grapes. It is sold for only 50 cents. Address as above.

Prof. S. L. Frogge will leave the last of this week for Benton, Ky., where he will take charge of the Marshall County Seminary during the next five months. His absence from Hopkinsville will be only temporary. He will still consider this his home and probably return when his school is out. Prof. Frogge is one of the best school men in Kentucky and his friends are still urging him to run for State Superintendent.

Mr. E. M. Carney, of this city, who has been for nearly twenty years with O'Bryan Bros., Nashville, changed houses recently, and is now connected with the H. T. Simon-Gregory dry goods Co., wholesale dry goods, St. Louis, in the capacity of traveling salesman. Mr. Carney has been one of the most successful commercial tourists on the road and controls as much trade as any man who ever handled a grip-sack. The merchant generally, desiring close prices on such goods, would do well to consult Mr. Carney before making their larger purchases.
